The Cosmetic Clinic Coolangatta is one of the most established aesthetic clinics on the Gold Coast. Owned and operated by Dr Sanjay Mohindra, a qualified medical practitioner with advanced training in all facial rejuvenation procedures

Dr Mohindra has been working in Australia since 1989 and has over 20 years of extensive experience in different cosmetic procedures. He has lived on the Gold Coast practicing medicine and providing cosmetic procedures since 1996. His quality of work & unbeatable results have earned him a highly reputable name in the cosmetic field resulting in a large client following.

Dr Mohindra's team of dedicated highly qualified dermal & laser therapists ensure that all clients are provided with state of the art medical grade treatments with minimal downtime.

Some of the medical aesthetic procedures in our clinic may be partly covered by Medicare.

Complimentary Consultations Available\*  
Affordable Packages Available

# Acne, Scarring, Skin Tags

Acne presents with sore, inflamed pustules & papules, comedones and scarring of the dermal tissue. Our grade 4 laser treatments achieve remarkable results with both acne & scarring procedures.

## ACNE

## SCARRING

## SKINTAGS / SKIN CANCERS

# Vascular

## Rosacea/Diffused Redness

Rosacea is an inflammatory skin condition causing redness, dilated capillaries & even acne in more severe cases, commonly found on the face. Non-invasive laser technology is used to reduce Rosacea and diffused redness with little to no downtime, minimal treatments & amazing results!

## Venous Lake / Angiomas / Bruising

Benign vascular lesions may arise anywhere on the body, though most are diagnosed on the lower lip, earlobe or elsewhere on the face, neck, or upper trunk. These lesions are completely harmless & easily treated with a specialized vascular laser.

**ANGIOMA**

**VENOUS LAKE**

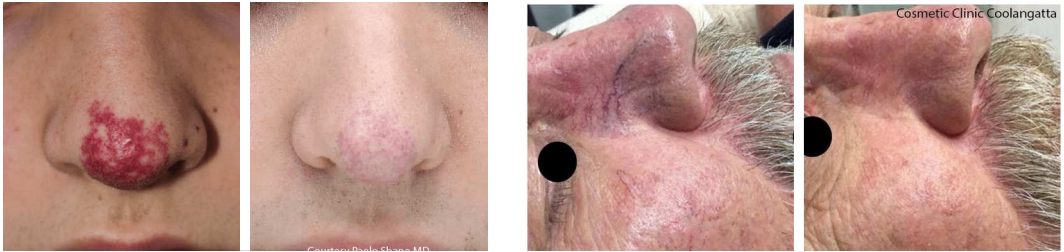

## Veins & Telangiectasia / Capillaries

From tiny spider veins to deep blue reticular veins, our medical grade vascular laser can treat vessels & veins on all skin types quickly, safely & effectively. Pulses of light energy are delivered to the vein causing the blood to coagulate eventually destroying the unwanted vessels which is later absorbed by your body.

### TELANGIECTASIA

### LEG VEINS

# Pigmentation

Our clinic has the most advanced laser technology in the industry to improve the appearance of unwanted pigmentation such as freckles, sunspots, age spots, melasma, stains & birth marks. This technology has the ability to treat all skin types with no down time & life-changing results.

**RESULTS AFTER ONE LASER TREATMENT**

## Iron Staining

Staining caused to the skin by leakage from Iron Infusions or Sclerotherapy can be treated with our medical grade lasers in minimal sessions.

## Tattoo Removal

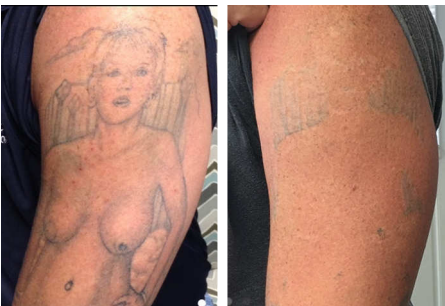

The revolutionary Enlighten III laser reduces the appearance of unwanted tattoos. Nano & Pico-second pulses shatter pigments in the skin without damaging the surrounding tissue with no downtime or blistering. Treatment of all tattoo inks including blue, green & red in all skin types with minimal treatments, irrespective of tattoo age.

# Body Contouring

## Skin Tightening

Ultraformer III is a medical grade device that uses high intensity, high frequency ultrasound to firm the muscles, reduce small pockets of unwanted fat and promotes long term collagen growth to slow down the visible signs of aging.

## Fat Freezing (Cryolipolysis)

Cryolipolysis is a medical grade treatment which utilises cryotherapy to destroy stubborn fat cells. This non-invasive procedure eliminates fat cells permanently by freezing them without damaging any of the surrounding tissue.

RESULTS AFTER ONE SESSION

# Injectables

## Dermal Fillers

Add volume, create structure & symmetry to the face. Results are immediately visible and generally involve minimal downtime and discomfort. We use the worlds leading products with uncompromised longevity.

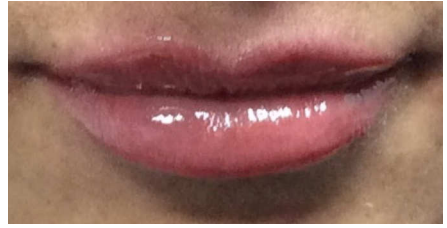

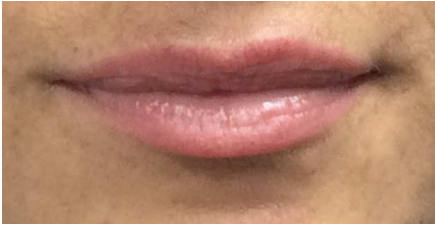

**MID-FACE LIFT - DERMAL FILLER**

**NOSE REMODELLING - DERMAL FILLER**

**GLABELLA - DERMAL FILLER**

**LIP ENHANCEMENT - DERMAL FILLER**

**LIP ENHANCEMENT - DERMAL FILLER**

### **Anti-wrinkle**

Injections that reduce the appearance of visible wrinkles & prevent the cause of future wrinkles.  
All injecting procedures are administered by Dr Mohindra.

**FOREHEAD - ANTIWRINKLE**

**CROWS FEET - ANTIWRINKLE**

## Nail Fungus

Our medical grade 4 laser is one of the main lasers approved to safely & effectively treat onychomycosis (nail fungus). A quick, easy, safe and effective procedure with a success rate of over 88%.

## Warts / Genital Warts

Unightly warts on the body & genital area of both males & females are safely removed using our medical grade 4 laser under doctors supervision. Minimal discomfort, quick results with no risk of scarring.

## Excessive Sweating (Hyperhidrosis)

Sweaty hands, feet, scalp, brow and more can be safely treated with injectables, proven longest lasting results.

## DNT (Skin Needling)

Minor trauma to the skin through micro needling stimulates the healing response and natural repair which accelerates the skins regeneration of collagen & elastin improving skin texture, wrinkles & scarring.

## Microdermabrasion

A non-invasive exfoliation treatment used to improve the skins overall appearance and health.

## Medical Grade Chemical Peels

A skin-resurfacing procedure recommended to treat fine lines/wrinkles and discoloration which can be performed alone or in combination with other cosmetic procedures.

## Omnilux (LED Light Therapy)

LED light therapy helps with anti-aging, wrinkle reduction and skin rejuvenation. Stimulates collagen production, accelerates wound healing, and kills aggressive acne bacteria.
